OVERVIEW

This 18" X 30" Premium H-Frame Solid Oak Furniture Dolly features 3" rubber wheels on the bottom which is the lowest profile dolly in the industry if you have height restrictions, a red oak frame (24,000 PSI Tensile Strength), and dual non-slip conveyor belt rubber strips on top. Able to bear a load capacity of 720 pounds, it is built for durability, efficiency, and long-lasting reliability - in all moving operations. Open deck dollies make less noise than solid ones, and the open space in the center prevents debris from collecting and makes it easy to hang when not in use.

ORDERING

Order online, by purchase order, or through the quote list on lonestardollies.com. Ships from Mansfield, Texas by FedEx, UPS, or freight for oversized items. Orders process the same or next business day after payment.

Specifications are the manufacturer's published data. Confirm fit, mounting pattern, and rated load for your application before ordering in volume. Made-in-USA and material statements apply only where listed above.
